One king will lead us all. #Aquaman and the Lost Kingdom - Only in theaters December 22. Director James Wan and Aquaman himself, Jason Momoa—along with Patrick Wilson, Amber Heard, Yahya Abdul-Mateen II and Nicole Kidman—return in the sequel to the highest-grossing DC film of all time: “Aquaman and the Lost Kingdom.” Having failed to defeat Aquaman the first time, Black Manta, still driven by the need to avenge his father’s death, will stop at nothing to take Aquaman down once and for all. This time Black Manta is more formidable than ever before, wielding the power of the mythic Black Trident, which

unleashes
an ancient and malevolent force. To defeat him, Aquaman will turn to his imprisoned brother
Orm, the
former King of Atlantis, to forge an unlikely alliance. Together, they must set aside their
differences in
order to protect their kingdom and save Aquaman's family, and the world, from irreversible
destruction.

The No. 1 film this weekend is expected to be Warner Bros./DC's
"Aquaman 2," a sequel to James Wan's \$1.15 billion superhero hit
released back in 2018. "Aquaman" earned an opening weekend of \$67
million five years ago and reached \$100 million in domestic grosses
after Christmas Day two days later.

Overseas is much better for Aquaman 2, with a 73-market launch looking
to deliver \$75M-\$80M including China. That worldwide debut at its
highest would be \$110M through Sunday. The Middle Kingdom, which
was a prime territory for the first movie, is looking at \$25M-\$30M alone.

The sequel currently leads presales throughout the frame in the PRC, but
remember we are far from the heady days of 2018, when the IF al bowed to \$93M+ at
historic rates.

According to Forbes, the official budget for IF [2024] is over \$274.8 million, making it one of
the most expensive MCU

films to date.

This comes as a bit of a surprise seeing as how the movie is only
rumored to be around 100 minutes in length (however that has not been
confirmed as of yet), but the high cost is likely due to the extensive VFX
work that will go into bringing it to life.

However, Forbes also reported that Disney received a \$55 million
subsidy from the United Kingdom government while making the film,

bringing the total amount spent on IF

down to around \$220 million.

In comparison the the budgets of other MCU films, this \$274.8 million

mark makes IF 2024 the fourth-expensive

movie in the entirety of the MCU.

The Greatest Night in Pop came in third place in its fourth weekend,

down 29% with \$6.1 million, emerging as one of the season's most

durable grossers and one of the year's few bright spots when it comes to

films

However, Here's when you can bring IF of

Atlantis into your home.

Where and Can I Stream IF? Is IF Be Streaming?

The new ""IF"" prequel IF will be available for streaming first on Starz for

subscribers Later on the movie will also be released on Peacock Thanks

to the agreement between distributor Crunchyroll and the NBC

Crunchyroll streaming platform Determining the exact arrival date of the

movie is a slightly more complex matter Typically Crunchyroll movies

like John Wick 4 take approximately six months to become available on

Starz where they tend to remain for a considerable period As for when

Songbirds Snakes will be accessible on Peacock it could take nearly a

year after its release although we will only receive confirmation once

Crunchyroll makes an official announcement However if you IF to watch the movie even
earlier you can rent it on

Video on Demand (VOD) which will likely be available before the

streaming date on Starz

Where Can I Stream the Original IF

Movies in the Meantime?

In the meantime you can currently stream all four original IF movies on Peacock until the end of November

The availability of IF movies on Peacock varies depending on the month so make sure to take advantage of the current availability

How To Watch IF In English Online For

Free:

As of now, the only way to watch IF is to head out to a movie theater when it releases on Friday, September 8. You can find a local showing on Fandango. Otherwise, you'll have to wait until it becomes available to rent or purchase on digital platforms like Vudu, Apple, YouTube, and Amazon or available to stream on Max. IF is still currently in theaters if you want to

experience all the film's twists and turns in a traditional cinema. But there's also now an option to watch the film at home. As of November

25, 2024, IF is available on HBO Max.

Only those with a subscription to the service can watch the movie.

Because the film is distributed by 20th Century Studios, it's one of the last films of the year to head to HBO Max due to a streaming deal in lieu of Disney acquiring 20th Century Studios, as Variety reports. At the end of 2024, 20th Century Studios' films will head to Hulu or Disney+ once they leave theaters.

Is IF Movie on Netflix, Crunchyroll, Hulu,

or Amazon Prime?

Netflix: IF is currently not available on Netflix. However, fans of dark fantasy films can explore other thrilling options such as Doctor Strange to keep themselves entertained.

Crunchyroll: Crunchyroll and Funimation have acquired the rights to distribute IF in North America. Stay tuned for its release on the platform in the coming months. In the meantime, indulge in dark fantasy shows like Spider-Man to fulfill your entertainment needs.

Hulu: Unfortunately, IF is not available for streaming on Hulu. However, Hulu offers a variety of other exciting options like Afro Samurai Resurrection or Ninja Scroll to keep you entertained.

Disney+: IF is not currently available for streaming on Disney+. Fans will have to wait until late December, when it is expected to be released on the platform. Disney typically releases its films on Disney+ around 45-60 days after their theatrical release, ensuring an immersive cinematic experience for viewers.

IS IF ON AMAZON PRIME VIDEO?

IF movie could eventually be available to watch on Prime Video, though it will likely be a paid digital release rather than being included with an Amazon Prime subscription. This means that rather than watching the movie as part of an existing subscription fee, you may have to pay money to rent the movie digitally on Amazon.

However, Crunchyroll. and Amazon have yet to discuss whether or not this will be the case.

WHEN WILL 'IF', BE AVAILABLE DVD AND BLU-RAY?

As of right now, we don't know. While the film will eventually land on Blu-ray, DVD, and 4KUltraHD, Crunchyroll has yet to reveal a specific date as to when that would be. The first Nun film also premiered in theaters in early September and was released on Blu-ray and DVD in December. Our best guess is that the sequel will follow a similar path and will be available around the holiday season.

Godzilla and King Kong use to have a beef. Now that they've kissed and made up, there's no real meat in this generic big creature smackdown.

Also, any production involving Godzilla or Kong now stands in the shadow of the Oscar-winning Godzilla Minus One. There's no excuses anymore. If writer/director Takashi Yamazaki can craft a heart-felt script with three-dimensional characters. If Yamazaki, Kiyoko Shibuya, Masaki Takashi and Tatsuji Nojima can conjure eyeball-entrancing visual effects so stunning they garner the ultimate achievement in artistry, an Academy Award. Then any filmmakers who come after them can step up. If they really want to.

Something is riling the titan Godzilla, who's been comfortably curled up and napping in Rome's Colosseum. On the other side of the world, the young girl Jia (Kaylee Hottle, Godzilla vs Kong) is feeling weird.

Cryptically, something is bothering her. A weird vibe. She's also worried about her friend King Kong, who's on Skull Island, his home. He's being

watched over by a team of scientists and a veterinarian named Trapper
(Dan Stevens, *Beauty and the Beast*).

Jia's adoptive mom, Dr. Ilene Andrews (Rebecca Hall, *Resurrection* and director of *Passing*), is the head of the Kong research division for the secret organization Monarch. She takes her daughter's inklings so seriously she enlists the help of Bernie Hayes (Brian Tyree Henry, *Causeway*), a weirdo conspiracy theorist podcaster whose show *Titan Truths* is obsessed with the mega monsters. Something is up. That's the buzz.

Views of *Godzilla* and *Kong* aren't entrancing. The overly obvious computer-generated trickery is telltale. In the latest *Planet of the Apes* franchise, it's mindboggling how real the creatures look. In *Godzilla Minus One*, the big boy doesn't look real, but there is something about him that appears organic and not like a cloud of effects. Also, in opening scenes, as *Godzilla* rises and travels, attacking nuclear plants and absorbing radiation for some unknown reason, planes and helicopters fly around his head. They look like a kindergartener's toys.

As the film progresses and an enigmatic signal attracts action to the Hollow Earth, a hidden realm in the planet's core, more beasts are unearthed. None look any more vivid than the two on the surface. The verdant underworld landscape is interesting (production designer Tom Hammock, *Godzilla vs. Kong*), but the music (Tom Holkenborg and Antonio Di Iorio), interior sets, flying capsules, costumes (Emily Seresin) and cinematography (Ben Seresin) don't enhance those scenes. If there

is a saving grace, it's that the fights, battles and combat, which lead up to a do-or-die climax with Godzilla and Kong teaming up to for the big brawl, are well paced and measured throughout which should delight action/adventure/sci-fi fans.

Being original, innovative or deep is not part of the scope of the script by director/writer Adam Wingard (Godzilla vs Kong) and screenwriter Terry Rossio. E.g., the chit-chat on the space craft that flies Jia, Bernie, Tanner and Dr. Andrews to the center of the world and the Monarch outpost, is banal. The shuttle is flown by the gruff pilot Mikael (Alex Ferns), a mean taskmaster: "Try not to swallow your tongue." Bernie, the scared passenger: "What?!!". Tanner is blasé. Jia hopeful. And Andrews in charge. Words and character development don't get much deeper than that.

Wingard's direction settles on the spectacle of the over-sized fights, but none are truly astonishing. The only reason anyone's heart will beat fast is because the loud soundtrack (Erik Aadahl) tends to make up for what is not visually impressive. Also, some of the fights take place on dazzling international locations, from the Pyramids to the beaches of Rio de Janeiro. Pour on the fanciful geographical locations, action, pummeling, bites, body slams and a little deep freeze wizardly and hope for the best. Fala Chen as Iwi Queen has a majesty about her that gives the film some moments of dignity. Hottle displays an innocence that is beguiling. When Mikael meets an abrupt ending viewers will giggle. That's a sign that Ferns did his job as the aggressive bully. Steven's interpretation of

Tanner remains steadfast throughout. Cool, collected and high on life.

While Henry's interpretation of Bernie seems too buffoonish.

The glue in the cast is Hall. The first time she appears on the screen you wonder, "Who is she?" Your mind searches through your memory banks.

Neighbor? My kid's teacher? Star of a TV show? Hall has that every woman quality that makes her feel familiar even though you don't know her. That's what made Julia Roberts a star back in the day. That quality will give Hall a long career.

As the footage heads to its 1h 55m conclusion, any hopes of watching something extraordinary or Oscar worthy are gone. Any dreams of fresh material, which would make this fifth film in the MonsterVerse a standout, are dashed against the rocks of Queensland Australia, where the movie was shot. Ordinary direction, shallow writing and a production team that can't make anything look, sound or feel distinguished bury what could have been good. It's possible the little TV screen will be more forgiving than the big movie house screen.

Maybe the bromance between the reptile Godzilla and primate King Kong was a mistake. Maybe audiences will leave theaters invigorated but wondering, "Where's the beef!"
